Dear Dr. Irfan Syam:

We have reached a decision regarding your submission to International Journal of Online Engineering (iJOE), "Problem Based Learning on Cloud Economics Analysis Using Open Source Simulation".

Our decision is to: publish the paper with the changes proposed by the reviewer. In terms of proofreading you can either your own or iJOE can arrange proofreading service with some charge.

Please submit the updated manuscript within 10 days from the date of this email. If there is any question please do not hesitate to contact.

Thanks again for your interest for iJOE.

With regards.

Abul Azad
Editor-In-Chief

Reviewer B:

Overall the manuscript looks acceptable for publication. However, before the paper can be accepted author should address the issues below:

- a) Figures 1 through 4 are difficult to read. It is better to make these figures as single column format rather than two column format for the whole paper. So, only the figures should be in single column format.
- b) It is important to have at least 3/4 citations from iJOE. One can browse through the past volumes of iJOE to get suitable ones.
- c) Quality of English needs to be improved in terms of sentence formation and punctuation. It is important to proofread the document by a native English speaker.

To: "Professor Abul K. M. Azad" <aazad@niu.edu>

Dear Professor,

Thank you very much for the information,
I will do my best to improve the paper according to the reviewer/s suggestion.
In terms of proofreading, my colleague who is native speaker will help me to do so.

Best regards,

Irfan

Dear Prof,

I need your confirmation regarding second suggestion of reviewer

b) It is important to have at least 3/4 citations from iJOE. One can browse through the past volumes of iJOE to get suitable ones.

Please correct me if I misunderstand ... it means I need to cite from iJOE 3 or 4 papers, right ?

Thank you

Best regards,

Irfan

Dear Dr. Syamsuddin,

Thanks for the note.

Yes, your explanation is correct. We strongly encourage authors to use suitable citations from iJOE while preparing their manuscript. iJOE is in publication since 2005 and there are range of articles published there.

Thanks and looking forward.

Dear Prof,

Thank you so much for your reply.
Then regardig the first suggestion of

a) Figures 1 through 4 are difficult to read. It is better to make these figures as single column format rather than two column format for the whole paper. So, only the figures should be in single column format.

I am thinking to put all figures on the back after reference part as appendix
If it is possible, please point me to iJOE paper with this structure to follow.

Thank you very much

Salam,

Irfan

Walikum Salam ...

Placing the figures in the back may not be a good idea. Readers likes to see the figures while reading text. So, please keep the figures within the text but make them one column format (only for the figures- this will stretch them whole width of the page) .

Hope this will help.

Abul Azad

Dear Prof,

I have corrected the paper according to reviewer's suggestion as follows

- a) All figures are put in single column format (see page 3 and 4).
- b) There are 3 new papers from iJOE in current reference section (see ref no 3, 8, and 9)
- c) English errors already corrected and proofread

Thank you very much

Best regards,

Irfan
