Message from The IEEE Control Systems Society Conference Management System

Message originated by Alessandro Astolfi

To: Mrs. Dharma Aryani

Re: MSC 2015

Submission No. 409

Title: An Improved Hammerstein-Wiener System Identification with Application to Virtualized Software System

Author(s): Dharma Aryani\*, Liuping Wang, Tharindu Patikirikorala

Dear Mrs. Dharma Aryani,

It is my pleasure to inform you that the paper identified above, for which you are listed as the corresponding author, has been accepted for presentation at the 2015 IEEE Multi-Conference on Systems and Control that will take place in Novotel Sydney Manly Pacific, Sydney, Australia on September 21-23, 2015. We received approximately 420 submissions, and it is commendable that your paper was among the 320 papers selected for publication.

Specifically, your paper has been accepted for presentation at the International Conference on Control Applications (CCA) that will be held together with the International Symposium on Intelligent Control (ISIC). These two conferences form the 2015 IEEE Multi-conference on Systems and Control.

Please convey this information and my congratulations to your co-authors, if any. Also please note that your paper may have been accepted in a different category than the one in which it was submitted.

The advance program for the conference will be available very soon on the MSC 2015 website <http://www.msc2015.org>.

Acceptance of your paper is made with the understanding that at least one author will attend the conference to present the paper. If a paper is not presented during a session, it causes severe disruption to the session. To avoid such interruptions, I would greatly appreciate it if you would inform me and withdraw your paper as soon as possible in the event that you or a co-author cannot attend the conference to present the paper. IEEE reserves the right to exclude a paper from distribution after the conference (e.g., removal from IEEE Xplore) if the paper is not presented at the conference.

Please note that reviewers' comments and associate editor's summary can be accessed by logging into your account and following the link for reviews for this paper. It is important that any critical comments therein are adequately addressed before the final paper is uploaded. Detailed author instructions are available on the MSC 2015 website <http://www.msc2015.org>.

All necessary forms needed for submission of your final manuscript will be created by the submission website at the time of final submission. Electronic submission of the final version of your manuscript is due by August 15th. The MSC 2015 website has a link to the manuscript submission website.

Please note that all papers are limited to six (6) pages. Excess page charges are paid at US \$120.00 per page with papers not to exceed a total of eight (8) pages. In order to submit the final version of your manuscript and abstract, at least one of the authors of the paper must register for the conference to upload the final manuscript.

Authors should note the new registration policy in regards to the allowable number of papers that can be uploaded without any excess fee depending on their registration categories (1 for student and retiree categories and 3 otherwise). Additional paper uploads for each registration category will require the amount of US \$200.00.

The manuscript submission website will require that you submit your abstract and make any final changes to the author list and title of the paper before uploading the paper. After this, no changes can be made.

Electronic submission for papers and abstracts is scheduled to open on July 20th, however, please check for updates on the MSC 2015 website in case there are any changes to this date. Please visit the MSC website for additional information such as the Call for Nominations for the Best Student Paper Award, the MSC workshops, the plenary talks, and the social events.

The website also includes information on student travel support and conference support for authors from developing nations. On behalf of the 2015 IEEE Multi-conference on Systems and Control Program and Organizing Committees, I thank you for your contribution and look forward to seeing you in Novotel Sydney Manly Pacific, Sydney, Australia at the MSC 2015.

Sincerely,  
Reza Moheimani  
2015 MSC Program Chair
