Dr. Denni Kurniawan <denni.kurniawan@utb.edu.bn>
to icimece2019@ft.uns.ac.id, me, safian@utm.my

Dear ICIMECE 2019 Committee,

Thank you for the similarity and formatting check. We have made the necessary changes. Responding to your comments:
And your Turnitin score is **48**
Our response: The similarity is high because 34 (%) of the 48 (%) comes from Dr Zubair's PhD thesis submitted to UTM. Please note that it is an acceptable practice for one's paper to directly copy/quote from one's thesis. Excluding similarities from Dr Zubair's thesis, this paper has similarity score of 14%, which is already below your threshold. For this reason, we did not make any amendment on the content.
Wrong format in author name, affiliation and email. Please follow AIP guideline
There is reference in list, but not cited/used in the paper
Figure format must follow AIP format
Our response: Thank you for the attention to details. We have made the changes accordingly. We also found that the Table captions format was incorrect, and made the correction.

Thank you and best wishes,
Denni

Subject: icimece2019 review 2 for paper 194

Dear Ahmad Zubair Sultan, Safian Sharif and Denni Kurniawan

We would like to inform you that we already finish reviewing your paper "**Drilling of AISI 316L Stainless Steel: Effect of Coolant Condition on Surface Roughness and Tool Wear**". Please find the comment from reviewer about similarity check and formatting below:

Similarity Check
The similarity check is done by Turnitin. And your Turnitin score is **48**

Recommendation:
Minor revision. Your Turnitin Score is still high. Please do revision or paraphrase the paper so that the Turnitin Score below 30%

You can do your own similarity checking. Please follow this guideline to check your own paper using Turnitin. . https://docs.google.com/document/d/1GbaBDDKP7GkZ_m1tW0Zo8-WFFsrqml5Fd6iaumZ5AhQ/.

Formatting
Please find the comment about formatting below:
*Wrong format in author name, affiliation and email. Please follow AIP guideline
There is reference in list, but not cited/used in the paper
Figure format must follow AIP format*
