Dear Editor,

I have done all my best for all pictures.
There's no way for me to improve it. Its already the best quality we can provide.

Please just use them.as they are right now.

Thats our best effort, thanks for understanding.

Please

Best regards

The quality of figures 5-8 has not been improved at all. It is a MUST to be improved.
Journal guidelines as attached are crystal clear.

Figure 4 is an output of specific software, so you can provide it in eps format.

Good News:

The journal is accepted by Scopus. Check the [Abstracting and Indexing section](#) of the journal website for more information.

Dear Editor,

I have tried to download Visio again and again many times but still could not be installed again, trial version Visio could not work and I can not buy full version Visio.
So, I can only provide you JPG file for Fig 4.

Then I have improved the quality of Fig 5, 6, 7 and 8, this is my best effort
Hopefully, you can understand

dear Editor,

I have tried my best to edit the draft using Adobe (trial 6 days more left). The results are as follows.

1. File IJAAS-210212(Aug11-Aug18)-.pdf I have made comments on the given textbox
2. FIGURE ALWAYS ON TOP PAGE __IJAAS-210212(Aug11-Aug18)-.pdf In this copy file, I show that the position of figures or tables in each page SHOULD BE ON TOP in the page, no texts or sentences over it. Please follow the position I have edited in this copy file.

Hopefully everything is clear now.

Thank you very much for your cooperation.

Dear Editor,

This is my ORCID id 0000-0002-6017-7364

Apologize because I do not have Adobe to do editing on the pdf file so I will mention the following point for revision.

Revisions :

1. Table 1 should be put on top in page, all sentences above table must be replaced under the table.
2. Figure 3 also must be on top in page, please all sentences above figure to be replaced under the figure
(please read attached file namely URGENT revision page 3 and 4.doc)
3. All missing citation should be just deleted as follows. I forgot to delete both last time.
 - (Sutha, 2018 ... page 1 and page 2)
 - (Di-Natale et al., 2003page 2).
4. I already created visio files of the flowchart and use case .
(please find two vsd files attached)
5. I also attached all figures in the jpg version .
(please find jpg files attached)

I hope all revisions have already answered the requests.

Finally, please kindly ensure again that in the final version of the paper, the position of Table 1 and Figure 3 are on TOP in each page as I mentioned in Revision No 1 above.

Thank you very much

IJAAS-210212 -"DocManS Document Management Systems with Security and Social Media Features: Designing and Usability Assessment"

Further to the submission of your manuscript, I am pleased to advise that it has been reviewed and **accepted for publication** in the International Journal of Advanced and Applied Sciences next issue.

Attached are the reviewers' comments along with the following editorial comments. Please take proper measures in modifying your manuscript while providing us with a response letter to each point arisen.

- The abstract section is not a good representative of the whole manuscript. The abstract should contain the purpose of the work, brief background, comparison with other works, and stating the power and loss regarding other works.
- Citation in the text and references, in the end, should be exactly based on the journal standards (Harvard Referencing Style). You can use the following address for more information: "<http://www.citethisforme.com/harvard-referencing>".
- Heading should be supported by proper numbering.
- Figures and tables should be addressed before being located in the text.
- Introduction section must be improved critically.
- References are dated!
- Flowchart figures must be provided in Visio.

The paper will appear in the forthcoming issues of the journal. You will be advised of the publication date in due course. Page proofs will be emailed to you for checking, approximately three weeks after receiving your modified paper.
