Message from PaperPlaza Conference Manuscript Management System

Message originated by Edward Boje

Dear Ms. Dharm aaryana

This email concerns your submission 1100:

Control Oriented System Identification for Performance
Management in Software System

by

Dharm aaryana*, Liuping Wang, Tharindu Patikirikorala

It is a pleasure to inform you that the contribution referenced above, for which you are listed as the corresponding author, has been accepted for presentation at the 19th IFAC World Congress to be held in Cape Town, South Africa, 24-29 August 2014.

Where available, the preliminary programme details for your paper, appear at the bottom of this email. Please note that the paper type might have been altered to fit the conference program. The preliminary program for the conference will be available by March 3, 2014 at the Congress website www.ifac2014.org. Note that the final programme may be different to the preliminary programme. Please note that the paper type might have been altered to fit the conference program.

Please note that reviewers' comments and the associate editor's summary are attached herewith, and can also be accessed by logging into your account and following the link for reviews for this contribution at:

<http://ifac.papercept.net/>

It is important that any critical comment therein is adequately addressed before the final paper is submitted.

Note the following VERY IMPORTANT issues when submitting your final manuscript:

1. PDF Quality - accepted papers will be archived on the IFAC-PapersOnLine system (except for papers accepted on the basis of extended abstracts). ALL papers must comply with the following quality requirements:

- a. Searchable (you can test this by using the search function of Acrobat reader)
- b. Must have all fonts embedded and subsetted.

You will not be able to upload your files without meeting the two criteria above. We relaxed these requirements for

the initial submission, but they will be strictly enforced for the final submission. Please test your PDF file using

<http://ifac.papercept.net/conferences/scripts/pdfctest.pl>

2. Reference List - in order to make your manuscripts more widely referenced, along with the PDF file, you are also required to upload references from your manuscripts as a text file. References can be copied and pasted from your searchable PDF file into a plain text file and uploaded into the system as a part of your final submission process.

3. Copyright Form - as a step in your paper upload process, you will be required to electronically transfer the copyright of your manuscript to the IFAC. You do not need to submit a separate copyright form.

4. Registration Fee and Paper Upload - Congress participation is conditioned to the payment of the registration fee. As for the paper upload, the widely advertised congress policy requires that at least one of the authors of a manuscript must have paid the registration fee for the final upload. Detailed registration requirements are explained at: www.ifac2014.org.

Any of the co-authors of a paper may register to upload the paper, however, only the corresponding author is able to upload the final paper.

In addition, please note that all papers have a page limit of 6 pages (12 pages for survey or keynote papers). Additional pages are charged at €100 per page, up to a maximum of 3 extra pages.

Electronic submission of the final version of your manuscript is due by 31 March 2014 through the Conference Manuscript Management System (CMMS). The final submission process also requires that you update the abstract and make any final changes to the author list and title before uploading. Please note that any names of authors not updated on the submission site will not be included in the final program of the congress.

Electronic submission for final contributions is scheduled to open on 14 February 2014. The basic instructions regarding registration and preparation of the final version of your contribution will be available at www.ifac2014.org.

Please also consult this website for further updates about the conference.

Congratulations on this fine achievement! We are looking forward to seeing you in Cape Town in August 2014.

Yours sincerely,

Edward Boje, IPC Co-Chair Xiaohua Xia, IPC Co-Chair

19th IFAC World Congress

Decision: Accepted as Contributed regular paper

Final submission deadline March 31, 2014

Submission information

Authors and title:

Dharma Aryani*, Liuping Wang, Tharindu Patikirikorala
Control Oriented System Identification for Performance Management in Software System

Conference: 19th IFAC World Congress

Hi Dharama,

Congrats,, make sure to do those modifications I suggested.

Tharindu

Many congratulations, Dharma and Tharindu. This is a top conference in control. I am very pleased. We will write many more journal and conference papers once the testbed is completed.

Dharma, can you come to see me about your confirmation seminar next week? We need to discuss your slides.

Best wishes

Liuping
