Our reference: PROMFG 29302
Article reference:
Article title: Minimum quantity of lubricant drilling of stainless steel using refined palm olein: Effect of coating tool on surface roughness and tool wear
To be published in: Procedia Manufacturing

Dear Dr. Sharif,

We recently sent you an e-mail with a link to the online "Rights and Access" form for the above-mentioned article and note that you have not yet completed it. To avoid any delay in publication, please complete the form via the link below:

<http://authors.elsevier.com/authorforms/PROMFG29302/463a1e24f8f3e5933643f0f25ec6c9bf>

(If the above link does not work, please copy the entire URL into your browser, noting that it may run onto a second line.)

We have proceeded with the production of your article in good faith and it is now too late to withdraw the article from publication. To prevent any misunderstanding later, we want to be clear that we are proceeding with publication on the explicit understanding that we have all the rights customarily included in a publishing and distribution license, including the exclusive right to publish and use the article in all media and to sublicense such rights. Your own rights to share such articles with others are set out in <https://www.elsevier.com/about/company-information/policies/sharing>.

In publishing this article, we also understand this to be an original article that does not infringe the copyright, or violate other rights, of any third party, and that complies with the journal's ethics and other policies.

Please contact us immediately if you have any questions, and quote the reference for your article, PROMFG 29302, in all of your messages to us.
