Kepada: "A. M. Shiddiq Yunus, ST, MEngSc, PhD" <shiddiq@poliupg.ac.id>

Dear **A. M. Shiddiq Yunus, Makmur Saini, Sri Suwasti, dan Purwito** :

CONGRATULATION!!!!

Your paper, #1533 **"Effects of Grid Frequency Drop on the Dynamic Performance of Full Converter Wind Turbine Generator"** has been accepted with **minor revision** (Please find your LoA in the attachment of this email).

Please send the revision manuscript within 1 (one) week from the receipt of this email. Prepare and upload revision (final manuscript) in PDF format. Your submission **MUST** adhere to the IoP template. For guidance, please visit the link:

<https://first.polsri.ac.id/2019/?p=86>

The reviews are below

=====FIRST Review 1=====

Write your comment about title and abstract of manuscript *

There is relationship between tittle and abstract

Weak aspects: Comments to the author: what are the weak aspects of the paper? *

Methodology section is not clearly stated

High Similarity Threshold

Recommended changes: Recommended changes. Please indicate any changes that should be made to the paper if accepted. *

1. In the last alenia of the introductory section, add the literature number in the curricular sign

2. Please insert the methodology section before entering the results and discussion section

High Similarity Threshold

*** Relevance and timeliness: Rate the importance and timeliness of the topic addressed in the paper within its area of research.

Acceptable (3)

*** Technical content and scientific rigour: Rate the technical content of the paper (e.g.: completeness of the analysis or simulation study, thoroughness of the treatise, accuracy of the models, etc.), its soundness and scientific rigour.

Valid work but limited contribution. (3)

*** Novelty and originality: Rate the novelty and originality of the ideas or results presented in the paper.

Some interesting ideas and results on a subject well investigated. (3)

*** Quality of presentation: Rate the paper organization, the clearness of text and figures, the

completeness and accuracy of references.

Readable, but revision is needed in some parts. (3)

The reviews are below

=====FIRST Review 2=====

Write your comment about title and abstract of manuscript *

The paper is well written and easy to follow.

Weak aspects: Comments to the author: what are the weak aspects of the paper? *

- *You just display the table directly without any explanation.*

- *not continue numbering in the table*

- *The methodology is too short so that the reader will have only little information about the process of the research.*

- *Fig 3-Fig 6, without any explanation.*

- *References not sequential, Try to use mendeley for references.*

Recommended changes: Recommended changes. Please indicate any changes that should be made to the paper if accepted. *

- *You just display the table directly without any explanation.*

- *not continue numbering in the table*

- *Fig 3-Fig 6, without any explanation.*

- *methods are not detailed enough*

- *References not sequential, Try to use mendeley for references.*

*** Relevance and timeliness: Rate the importance and timeliness of the topic addressed in the paper within its area of research.

Acceptable (3)

*** Technical content and scientific rigour: Rate the technical content of the paper (e.g.: completeness of the analysis or simulation study, thoroughness of the treatise, accuracy of the models, etc.), its soundness and scientific rigour.

Solid work of notable importance. (4)

*** Novelty and originality: Rate the novelty and originality of the ideas or results presented in the paper.

Some interesting ideas and results on a subject well investigated. (3)

*** Quality of presentation: Rate the paper organization, the clearness of text and figures, the completeness and accuracy of references.

Readable, but revision is needed in some parts. (3)
