Contents :

- | | |
|---|---------|
| Experimental Investigation of Effect of Process Parameters on Mrr and Surface Roughness In Turning Operation on Conventional Lathe Machine For Aluminum 6082 Grade Material Using Taguchi Method
Mihir T. Patel, Vivek A. Deshpande | 177-185 |
| Analysis of ECG Using Filter Bank Approach
S. Thulasi Prasad, S. Varadarajan | 186-190 |
| Impact of Vehicle Mobility on Performance of Vehicular Ad Hoc Network IEEE 1609.4
M. Ahyar, Irfan Syamsuddin, Hafsa Nirwana, Ibrahim Abduh, Lidemar Halide, Nuraeni Umar | 191-195 |
| Idealization of a Gas Turbine Compressor Blade to a Rectangular Plate and Analyzing the Variation of Stress Concentration Factor for U-Notches
Mohammad Rafi Nadaf, Sharan Shegedar | 196-202 |
| Novel Technique for Fire Detection
S.P. Kale, S. B. Somani | 203-205 |
| Improved Estimation of Population Mean Using Median and Coefficient of Variation of Auxiliary Variable
Subhash Kumar Yadav, Sheela Misra, Alok Kumar Shukla, Vishwas Tiwari | 206-211 |
| Data Acquisition System (DAS) Based On ARM Embedded Web Server
Ms.Vaishali Dhawale, Prof.S.M. Turkane | 212-215 |
| An Introduction to License Plate Detection System
Archita Patel, Mr. Krunal R. Patel | 216-222 |
| Closed Form Solutions to Water Pollution Problems Using Auto-Bäcklund Transformations
Vinicius G. Ribeiro, Jorge Zabadal, Fábio Teixeira, Guilherme Lacerda, Sidnei Silveira, André Da Silveira | 223-229 |
