

Fwd: Proceedings Papers of the Gums and Stabilisers Conference

Fri, Apr 28, 2023 at 8:40 PM

Dear Colleagues,

many thanks to all of you who will be participating at the G&S conference in June in Wrexham. As you are no doubt aware the proceedings of the Conference will be published once again by the Royal Society of Chemistry in book form and copies will be sent to all registered delegates after the Conference. The book will also be available electronically through the RSC website and each article will be searchable with its own DOI.

All paper and poster presenters are invited to submit their manuscript for inclusion in the proceedings in 'camera ready form' and details on how to produce your manuscript is on the Conference website [www.gumsandstabilisers.org]. Manuscripts should be up to 8 pages in length including figures and tables. Each manuscript should start with an ABSTRACT and the abstract should ALSO be submitted as a separate document. Authors will in addition need to complete the 'Licence to Publish' form which is also on the website. All documents should be sent to me electronically at the address below by May 31st 2015 so that the proceedings can be published in a timely fashion.

The Conference programme will be updated from time to time so please check for changes on the website.

We look forward very much to seeing you here in Wrexham once again for what I am sure will be a most interesting and exciting Conference.

best wishes
